

Carrier Cover Creators Instructions

If you (or someone in your family) knows how to sew, then our animals would love for you to make them some carrier covers. Carrier covers are very important at SPCA. They keep our cats calm and prevent the spread of disease when a sick animal is being transported.

Materials needed:

- > Scissors
- > Ruler
- > Fabric
- > Sewing machine

Instructions:

We have a range of carrier that vary in size, they are generally:

- > 40–50cm high
- > 40–50cm wide
- > 70–80cms long

So it is safer to make them a bit larger, as our carrier sizes vary.

Covers need to hang approx. 20cms lower than the base and they need a hole in the top for the handle.

NOTE

Contact our Volunteer Coordinators if you would like more information or if you would like us to supply you with sheets or fabric for you to use.
