Five Domains Playdough Race Game

Roll the die and try to be the first to give your animal a better life!

Number of players: 2 - 6

**Equipment:** A die, playdough, attached playdough boards, and access to SPCA's Kids' Portal.

Instructions:

Domain Key:

1. Take turns rolling the die until you roll a 1.

2. Once you have rolled a 1, choose your animal playdough board.

3. Once all players have an animal playdough board, take turns rolling the die.

4. Each number on the die equals a domain. Roll the die, look at the number, and use the key to find out what domain it equals.

5. Use a piece of your playdough to create something for that domain for your animal. When done, place it in the correct domain square.

   If you can't think of something to make for a domain, miss your turn and go to your animal's care section on the Kids' Portal to watch the video for the domain you're stuck on. Then you'll know what to make for that domain next time.

6. The first person to have something for their animal in every domain box is the winner!
