

Irresistiballs

Our friends at Purina have come up with the idea for this great cat toy, they've named it an irresistiball! You can read the instructions or watch the video to see how easy it is to make one yourself!

Materials needed:

- > Cardboard tube
- > Scissors

- 3 Take one ring and place it inside the other.

Instructions:

- 1 Using the width of your pointer finger as a guide, cut a ring from the cardboard tube.

- 4 Place a third ring inside the first two.

- 2 Do that three more times so that you have four cardboard rings.

- 5 Finally, squeeze your fourth ring in between the other three.

You can even decorate your irresistiballs with non-toxic markers!
