

No Sew Cat Toy

This is a great interactive toy for your cat or kitten. Interactive toys are fun and positive for both you and your companion animal. They also help strengthen your bond!

Materials needed:

- > Fabric (fleece or flannelette sheets work best)
- > String
- > Scissors

Instructions:

- 1 Cut a strip of fabric approximately 5cm x 30cm.
- 2 Cut a piece of string approximately 45cm long.
- 3 Fold the fabric lengthwise and cut small strips all the way along the fabric. Be sure not to cut all the way through.
- 4 Unfold the fabric and roll it up as snug as possible along the middle
- 5 Tie one end of the string tightly in the middle of the fabric and secure with two knots.
- 6 Work material into ball shape.

**For your cat at home, try attaching the other end of the string to a plastic or wooden stick to make a wand toy!*
