

Small Animal Cracker Toy

This cracker style toy is a great enrichment item for small animals like rabbits, guinea pigs, rats, and mice! You can put your companions favourite healthy food or treat inside and they'll have a great time shedding the paper and cardboard to get to it!

Note: You can cut the cardboard tube to make crackers smaller for mice!

Materials needed:

- > Paper bag
- > Scissors
- > Cardboard tube

- 2 Wrap the paper around the cardboard tube.

- 3 Twist one side of the paper at the end of the cardboard tube.

Instructions:

- 1 Cut the big side of the paper bag out, then cut the handle off.

- 4 Twist the other end of the paper to close the cracker toy and your cracker toy is finished!

Note: If you are making a cracker toy for your own animal, you can add their favourite healthy food/treats before closing. If donating to SPCA, please leave empty.
