

Spiral snake toy for cats

NOTE Please do not paint or colour these snake toys, they are best left plain. Cats love playing with these snake toys, and often bite or chew them, sometimes paint or ink can make them sick or make a mess when it gets wet from being in a cat's mouth!

Equipment needed:

- 🐾 scissors
- 🐾 cardboard
- 🐾 string
- 🐾 snake template

Instructions

1. Print or trace the snake template onto a piece of cardboard
2. Cut out the snake with scissors, following the thick black line that ends on the head.
3. Attach the piece of string to the head and the snake is ready to hang in one of our cats' enclosures!
