

## Tilting Mouse Bridge

This tilting mouse bridge can make a fun enclosure addition for your mice! Mice love to play, so providing them with lots of toys and enrichment can help them express this natural behaviour!

### Materials needed:

- > Popsicle sticks
- > Non-toxic glue

- 2 Create two platforms by gluing a popsicle stick vertically along the ends of the other popsicle sticks.

### Instructions:

- 1 Start by counting out 24 popsicle sticks, laying them out horizontally.

- 3 Join the two platforms together by gluing two more popsicle sticks.

## Tilting Mouse Bridge

**4** Glue several more popsicle sticks along the bottom of the bridge to ensure all popsicle sticks are attached.

**6** Glue six groups of three popsicle sticks together. Stack the popsicle sticks in a pyramid.

**5** Next, glue several popsicle sticks horizontally along the bottom to ensure the bridge is secure.

**7** Allow the tilting bridge to completely dry before giving it to your mice to enjoy.

*Note: Parents and guardians - it is essential to ensure that this enrichment item and the materials used are safe and appropriate for your particular companion.*
