

# Aggressive / Angry / Very Unhappy

A dog displaying aggressive body language wants to scare away whoever is bothering them, or even bite them. **Keep far away from a dog acting like this!**

## What to look for

- **Head:** held high and tense.
- **Ears:** held forward and alert, they may be tilted forward.
- **Mouth:** tense mouth with bared teeth and sometimes “air snapping”, they may snarl.
- **Tail:** held up and rigid, although may appear to slightly wag.
- **Body Posture:** stiff legs with a forward lean. Hackles are often raised.
